A COMPLETE ANTI-AGING SOLUTION FOR A BRIGHTER, FRESHER, MORE YOUTHFUL YOU

XANGO AERIS at a glance:

Collagen is a major structural protein in our skin and body. It helps deliver smooth, plump and healthy skin.

XANGO Aeris offers an innovative 2-step system to address visible signs of aging around sensitive eye area while optimizing your skin's natural collagen production internally.

Clinically proven formulas let you fight back against major signs of aging. These products blend powerful peptides; vitamins C, D, E, and B12; and nutrient-rich plant oils to visibly tighten, firm and revitalize skin around the delicate eye area.

Watch immediate improvement turn into lasting results.

Background:

Collagen Helps Us Feel and Look Great

Did you know that after water, collagen is the most abundant substance in your body? Critical to our health and well-being, collagen comprises the structural matrix throughout our body, supporting not only our skin and hair, but also bones, joints, and organs. In fact, collagen makes up approximately 33% of the body's protein and 75% of our skin, which helps create and maintain a smooth, well-hydrated, youthful appearance.

The Problem of Collagen Loss

Natural collagen decreases as we age due to slowing production and degradation. After we turn 25, our bodies lose our natural collagen at rate of about 1% a year. Free radicals, UV light, ozone, poor diet, pollution and other factors contribute to the loss. This loss of collagen results in fine lines and wrinkles, eye bags, dark circles and uneven skin tone and texture.

Skin: Approximately 75% of skin is collagen; forms complex matrix of connective tissues which gives structure to the skin, supporting resilience and hydration to maintain tight, youthful appearance.

XANGO Aeris Instant Eye Gel:

Firmer skin, younger eyes – in minutes

Nothing helps you look younger faster than firmer skin around the eyes. Instant Eye Gel utilizes regenerative vitamin B12 and minerals to lift and smooth away appearances of fine lines and wrinkles, under-eye bags and puffiness in minutes. You'll notice a difference immediately.

Key Benefits:

- Firms and lifts the delicate skin around the eyes
- Reduces the appearance of wrinkles and under-eye puffiness
- Light texture allows quick absorption for instant results

Directions:

Apply a thin layer to eye area with fingertips and spread gently. Allow skin to absorb for a few minutes. Use in the morning or as needed.

Key Ingredients:

- **Magnesium Aluminum Silicate:** A naturally occurring mineral derived from refined and purified clay. It helps tighten, firm & smooth the appearance of fine lines, deep wrinkles & pore
- **Sodium Silicate:** A firming ingredient which helps tighten, firm & smooth the appearance of fine lines, deep wrinkles & pores
- **Vitamin B12:** An essential vitamin and cofactor in the body. It's a primary contributor to the support of many functions which maintain overall well-being.

XANGO Aeris Eye Renewal Concentrate:

Look as young and as bright as you feel

Clinically proven formula redefines collagen matrix, stimulates circulation, and reduces the signs of inflammation with a unique combination of peptides, vitamins and rich plant oils. Over time you'll enjoy firmness, freshness and radiance that increase with consistent use.

Key Benefits:

- Clinically proven to reduce fine lines and wrinkles
- Increases collagen synthesis and helps reconstruct healthy, youthful skin
- Strengthens skin density to reduce eye bags
- Stimulates circulation to reduce dark circles

Directions:

Gently apply to eye area every morning and evening.

Key Ingredients:

- **Palmitoyl Tripeptide-1:** A regenerative peptide that stimulates collagen production.
- **Palmitoyl Tetrapeptide-7:** Cutting-edge peptide targets skins' clarity & brightness and reduces inflammation
- **Phytonadione:** Also known as vitamin K. It helps improve the appearance of dark circles under the eyes.

- **Chrysin:** A naturally occurring isoflavone derived from plants such as passion flowers. Research strongly suggests that this flavonoid works to reduce the signs of inflammation, most likely due to the fact that it inhibits COX-2 expression and PGE-2 formation. It also demonstrates its ability to scavenge free radicals in the body, purporting that it may function as an antioxidant as well.
 - **N-Hydroxysuccinimide:** Helps under eye dark circles. It reinforces firmness and tone of the eye area, as well as activates the elimination of blood-originated pigments responsible for dark circle color and local inflammation.
 - **Sunflower Seed Oil:** Rich in vitamin E. It helps protect the collagen and elastin in skin and reduce fine lines and wrinkles.
 - **Grape Seed Oil:** Extremely rich in beta-carotene and vitamins D, C, E. It also happens to have a concentration of essential fatty acids like palmitic, stearic, and linoleic acid. These fatty acids have performed well in clinical anti-wrinkle trials. They have also proven to be effective at minimizing the prominence and size of scars.
 - **Avocado Seed Oil:** One of the most penetrative of all natural plant oils. It's rich in vitamins B, C, D, E, K and, especially, A (like a natural retinol alternative, increasing cell-turnover), as well as potassium, lecithin, and chlorophyll. It has been shown in a study to increase the amount of soluble collagen in the skin and improve wound healing. This translates to better skin repair and anti-aging benefits, as well as better elasticity and thicker, more resilient skin.
 - **Vitamin E:** Known for its antioxidant benefit. It helps reduce the risk of oxygen free radical damage from the sun's harmful UV (ultraviolet) rays.
